Response to Amendment

1. This Office Action is responsive to Amendment and RCE received on 5/12/2009. Applicant amended claims 1, 14 and 17 and canceled claims 12, 13 and 19. Claims 1-11 and 14-18 remain in the application.

Allowable Subject Matter

2. Claims 1-11 and 14-18 are allowed over prior art of record.

The following is a statement of reasons for the indication of allowable subject matter.

The closest prior art of record, Kenschak (EP 1065855) and Chen et al. (US 6,768,778), taken alone or in combination, fails to disclose the inventive method for shortening the guard interval. The unique method steps include, "using the received guard interval for subsequent transmissions to target node and programming source node to revert back to a previous baseline guard interval that was negotiated with all nodes associated with the source node" as in claims 1, 14 and 17.
